

Welcome to Hebron Animal Hospital

Please answer these brief questions so that we can better understand you and <animal>'s needs!

How long have you owned your pet?

Has your pet been microchipped?

What type of food do you feed your pet?

Does your pet get table scraps or treats? How often?

Does your pet have an exercise program? If so what does this consist of?

How often do you brush your pet's teeth?

Has your pet ever had professional dental care? Do you understand the health benefits of regular dental cleanings?

Do you travel with your pet? If so, do you have concerns regarding how they travel?

Will your pet ever need to board, go to grooming facilities or dog parks?

Is your pet on a preventative program for controlling external parasites such as fleas and ticks?

Is your pet exposed to wildlife or where wildlife frequents (i.e. animal droppings/eliminations)?

Is your pet on a preventative program for controlling internal parasites such as heartworms, hookworms, roundworms etc.?

Does your pet exhibit anxieties about loud noises? Storms? Unfamiliar surroundings/people? Being left alone? (Please circle all that apply)

Where does your pet sleep at night? When left at home alone?

Please circle any of the following concerns you may have

1. Excessive barking
2. Excessive itching or scratching
3. Wetting or spraying in the house
4. Problems around children
5. Biting
6. Shedding
7. Clawing or digging
8. Jumping
9. Any recent or past vomiting or diarrhea?
10. Any other concerns for the doctor:

What prior health issues has your pet had?

Drug Allergies?

Vaccines reactions?

Were you able to bring previous health records for your pet from their previous veterinarian?

Thank you for your time, please hand this back to one of our staff members so that the doctor can review it and make recommendations based on <animal>'s individual needs!
